

Useful MASE Clinic Information

Flu Vaccines are still available at the MASE Primary Clinics. If you haven't gotten your flu shot yet this year, it's not too late. The Clinics still have a small supply available. Call your MASE Primary Clinic to set up an appointment to receive the flu vaccine at no cost to the MASE subscribers.

MASE Monticello Health & Wellness Clinic

Did you know?

You Can Get All of Your Labs Done At the Clinic

Yes, in addition to getting labs done ordered by the providers at this clinic, you can get labs done ordered by outside doctors that you may be seeing.

So, bring your script from another doctor and we will be happy to do your blood work and make sure your doctor gets the results delivered to their office!

This is at no cost to you.
